Jump to the TOP 100: Flottweg receives award from Ranga Yogeshwar as an innovator among SMEs

Flottweg SE honored for its success as part of the TOP 100 competition for innovation management at this year's German SME Summit. The award ceremony was held with mentor Ranga Yogeshwar on June 24 in Frankfurt am Main. Every year, this independent competition honors the outstanding achievements of medium-sized companies that have demonstrated above-average success through innovation. Flottweg SE excelled in size class C (more than 200 employees) and in the category "Top Management Promoting Innovation" in particular.

This award is a real honor for Flottweg SE: "Innovation and progress are an integral part of our success and thus an important part of our company DNA. At Flottweg, we always think one step ahead so that we can provide our customers with the best solution in the field of separation technology," explains CEO Dr. Kersten Link (Sales & Technology). CFO and CPO Peter Frankfurter (Finance & Production) is therefore enthusiastic about the seal: "We are delighted to have been named Top 100 Innovator for SMEs. We would like to thank all our employees who have made Flottweg a top innovator with their passion and teamwork and who will continue to do so in the future."

This year, a total of 436 companies applied for the seal of innovation in a scientific selection process. Of these, 294 were successful in receiving awards in 2022. Mentor Ranga Yogeshwar points out that the prize winners serve as role models: "Innovators are thought leaders, but they are also pioneers," says Yogeshwar. "They put their products to the test and wonder what the requirements for an ecological society and a climate-friendly world will be. And they examine the opportunities and challenges that increasing digitization will bring in terms of cooperation, social relationships, and thus also employee retention."
