

Position: Machining Apprentice

Location: Independence, KY

Position Type: Full Time

Reports to: Lead Machinist

Purpose: Assisting machinist in repairing parts of used Flottweg machines

Responsibilities:

- Assisting machinist with fabrication and repairs while training on current Flottweg repair practices.
- Assisting with maintenance on machining equipment.
- Proficient in the use of mig welders, tig welders, and pneumatic hand tools.
- Facility tasks that could include but not be limited to shelf installation and area clean-ups, etc.
- Interface with Engineering on any necessary items and/or implement any mechanical or process upgrades to existing equipment.
- Pay attention and adhere to Flottweg in-house safety policies and requirements.
- Participate as required in inter-company (FW USA) and intra-company (FW USA & FW Germany) training programs.

Qualifications:

- Comfortable around large metal removal equipment.
- Good attitude and willingness to learn a trade.
- This role will require a well-rounded mechanical background. Basic tig welding, fabrication and machining experience is a plus.
- The position will require the candidate to become an internal expert of Flottweg parts.
- An ability to handle projects that are time critical and ever changing is essential.
- English fluency required.

Eligibility:

- Must be legally authorized to work in the United States.
