Position: Machining & Welding Technician

Location: Independence, KY

Position Type: Full-Time

Reports To: In-House Repair Manager

Purpose: The Machining & Fabrication Technician supports the refurbishment and repair of manufactured parts and equipment. This role involves metal fabrication, welding, machining support, and general shop responsibilities to ensure high-quality repairs and efficient operations.

Key Responsibilities:

- Perform metal fabrication, surface cleaning, and weld preparation.
- Complete welding repairs and rework as required.
- Polish parts and components using a manual lathe.
- Sandblast and paint parts or equipment as needed.
- Drill, tap, and reclaim threaded holes.
- Perform brazing, soldering, and welding of metal components.
- Participate in scheduled workplace care and maintenance activities.
- Take part in inter-company and intra-company training programs.
- Collaborate with various Flottweg US (FWUS) departments as needed.
- Periodically travel to FWSE for training or company-related functions.
- Perform other duties as assigned.

Qualifications:

- Proficient in the use of hand and power tools.
- Intermediate skills with mechanical tools, measuring equipment, and interpreting technical data.
- Moderate experience with MIG (Metal Inert Gas) and TIG (Tungsten Inert Gas) welding.
- Manual lathe operating experience.
- Proactive, disciplined team player with the ability to manage time-sensitive and dynamic tasks.

Eligibility Requirements:

- 3-5 years of relevant experience
- Moderate organizational, communication, and basic computer skills.
- Must be legally authorized to work in the United States.
- English fluency required; Spanish language skills are a plus.
